## SUMMARY

Motivated B.Tech student specializing in Artificial Intelligence & Machine Learning, with a strong foundation in Python, data structures, and algorithms. Passionate about applying ML techniques in real-world applications, especially in computer vision and predictive analytics. Actively seeking a remote internship opportunity to contribute, learn, and grow with innovative teams.

## EDUCATION

### Asansol Engineering College

B.Tech in CSE (AI & ML)

Sept 2025 – Present | CGPA: 7.1

### The New Horizons Institute of Technology

Diploma in Electrical Engineering

July 2023 | CGPA: 8.0

### Madhutati High (H.S) School

Secondary (2018) & Higher Secondary (2020)

## TECHNICAL SKILLS

- Programming:** Python, Java
- Machine Learning & AI:** Supervised/Unsupervised ML, Computer Vision, Explainable AI
- Frameworks & Tools:** FastAPI, React.js, Jupyter Notebook, GitHub, VS Code
- Core CS:** Data Structures & Algorithms, Operating Systems

## CERTIFICATIONS

- Oracle Cloud Infrastructure Certified AI Foundations Associate – April 2025

## PROJECTS

### Smart Cricket Analytics & Prediction Platform

- Built a web portal providing comprehensive cricket analytics (IPL, ODI, T20).
- Developed backend APIs with FastAPI for teams, players, matches, and prediction models.
- Implemented ML models with Explainable AI techniques to enhance interpretability of predictions.
- Designed a React.js frontend for interactive visualizations and user experience.

## ADDITIONAL INFORMATION

- Languages:** English, Hindi, Bengali (Native)
- Interests:** Travelling, Exploring new technologies, Learning new skills
